

## Updating my Company Profile on Metalshub!

1. Now, our users can update their profile by themselves. To update your company profile click on the small arrow on the top right side of the screen and select the option "company profile".

2. As you can see in the image below, you can enter a company logo and add the company website. It is not possible to change the VAT number, address and name. In case you need to do any additional change please contact us.

3. You are able to add new delivery locations and new storage locations. Click on the bottom “Add a new delivery location” and fill in the information. On the right side of each field, you can find a mark that provides you some information that may be helpful for you.
